v.02

*The ACE Lab is purposed for Cybersecurity, testing and evaluation.*

### TECHNOLOGY/FACILITY DESCRIPTION:

The Armament Cyber Engineering (ACE) Laboratory primarily conducts research on Cybersecurity technologies and tools. The ACE Lab possesses the ability to perform Risk Management Framework (RMF) Certification and Accreditation on Armament systems. Networkiness and continuous monitoring consultation is an additional function of the lab and the Cybersecurity team.

### EQUIPMENT AND EXPERTISE AVAILABLE:

- Hardware and software tools required to support cybersecurity engineering and assessments. Various laptops, monitors, smartboard and cybersecurity tools
- Cybersecurity research library
- Cybersecurity capabilities
- Capability to replicate customer environments to conduct virtual cybersecurity testing and evaluation
