v.02

The Gaming Interactive Technologies & Multimedia (GITM) Graphics Production Studio was established to provide Picatinny organizations a local, government managed solution for the design and production of large format graphics.

TECHNOLOGY/FACILITY DESCRIPTION:

The GITM Graphics team are able to work with customers on designing the graphical layout of presentations in a wide range of sizes. Whether it be Powerpoint slides of quadcharts, table top/easel graphics, velcro/magnetic panels for pop-up displays or banners/signs for an event, GITM Graphics can assist. The most commonly requested items are foamcore mounted posters (24″ x 36″).

GITM Graphics is a government run organization which allows our customers to avoid the sometimes lengthy purchase process involved in having graphics production performed by a commercial company. It also allows us to print sensitive information for internal government events without the need for public release of the information.

EQUIPMENT AND EXPERTISE AVAILABLE:

- Graphic/logo design
- Large format printing (up to 60″ wide x 100′ long)
- Lamination (up to 44″ wide x 100′ long)
